

REMARKS

It has been determined that one of the references incorrectly identifies the primary author and this now has been corrected on pages 16 and 30.

Further to the IDS forwarded to the Office on September 14, 2001, we enclose the second page of that document corrected with respect to the identification of reference 48 and a copy of that reference is enclosed.

Attached hereto is a marked up version of the changes made to the specification by the current amendment. The attached page is captioned **"Version with markings to show changes made."**

Respectfully submitted,

M.I. Stewart

Application No. 09/647,946

VERSION WITH MARKINGS TO SHOW CHANGES MADE

By the Specification:

Paragraph beginning at line 1 of page 16 has been amended as follows:

al. (ref. 17) disclosed that introduction of gold microprojectiles coated with DNA encoding bovine growth hormone (BGH) into the skin of mice resulted in production of anti-BGH antibodies in the mice, while [Furth] Davis et al. (ref. 18) showed that a jet injector could be used to transfect skin, muscle, fat and mammary tissues of living animals.

Reference no. 18 on page 30 has been amended as follows:

18. [Furth] Davis et al., Vaccine 1994, 12: 1503:1509.
